PROFESSIONAL SUMMARY

Web developer skilled in Python, JavaScript, React, and SQL with experience building responsive applications. Strong in problem-solving, DSA and active participation in open-source contributions. Looking to create impactful projects and grow as a full-stack developer.

EDUCATION

Bachelor of Technology (Computer Science)	2024 - 2028
Newton School Of Technology, Ajeenkya DY Patil University, Pune	Grade: 7.06/10.0
Intermediate (Class XII)	2023 - 2024
Bharat Vidyalaya, Buldana	Grade: 74.17%
Matriculation (Class X)	2021 - 2022
Bharat Vidyalaya, Buldana	Grade: 71.8%

PROJECTS

Fashion-E-Commerce ([Github](#)) ([Demo](#)) July 2026

- Developed a full-stack **Fashion E-Commerce Application** with features including **User Authentication, Product Browsing, Wishlist, Cart Management, and Order Tracking**.
- Implemented secure **JWT Authentication, Product Search, Filtering**, and a **Responsive UI** to enhance user experience.
- Developed an **Admin Dashboard** for managing **Products, Categories, Users, and Orders**, along with **Analytics Support**.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, JavaScript — Deployed on Vercel & Render.

BillVision-AI ([Github](#)) ([Demo](#)) April 2026

- Developed an **AI-powered Electricity Bill Analyzer** using **Google Gemini 1.5 Flash (Vision)** to extract structured data from electricity bill images and PDFs.
- Built a **Flask-based backend** to process uploaded documents, validate AI responses, and automate data extraction with robust JSON parsing.
- Automated the generation of **Excel reports** using **OpenPyXL**, preserving predefined templates and formulas for accurate downstream analysis.
- Tech Stack:** Python, Flask, Google Gemini API, OpenPyXL, HTML, CSS, JavaScript, Pillow, Vercel.

QRConnect ([Github](#)) ([Demo](#)) November 2025

- Built a mobile app to **generate digital visiting cards** with QR codes for instant sharing using **React Native, JavaScript, Expo, and AsyncStorage**.
- Implemented offline profile storage, QR generation, and QR scanning without requiring any backend or internet.

Mood Tunes ([Github](#)) ([Demo](#)) April 2025

- Built a **mood-based music streaming web app** using **React.js, JavaScript, and CSS**, where users can select a mood to play curated songs.
- Displayed motivational quotes alongside each mood to create a more engaging experience.
- Built a responsive interface with smooth background and UI transitions for an immersive feel and **deployed on Vercel**

CERTIFICATIONS

Generative AI for Everyone DeepLearning.AI ([Link](#)) March 2025

- Completed **"Generative AI for Everyone"** course, learning generative AI fundamentals, practical applications, and ethical considerations for responsible use.

AI For Everyone DeepLearning.AI ([Link](#)) March 2025

- Completed **"AI For Everyone"** by DeepLearning.AI (Coursera), learning AI fundamentals, real-world applications, and strategies for leveraging AI in businesses.

SKILLS

Computer Language: CSS, HTML, JavaScript, Python, SQL, TypeScript

Courses: Data Structure

Soft Skill: Decision-making, Problem-Solving, Responsibility, Teamwork, Time management

Databases & Data Tools: Excel, MongoDB, MySQL

AI / ML: LLM, Gemini API, Vision-Language (CLIP)

APIs & Testing: API, OAuth 2.0

Cloud & DevOps: AWS, Git and Github

Frameworks & Libraries: Express JS, Node.js, Prisma ORM, React, React Native, FastAPI

EXTRA-CURRICULAR ACTIVITIES

- Participated in hands-on robotics projects, including the development of a line-following robot. Gained experience in circuit design, microcontroller programming, and problem-solving.
