PROFESSIONAL SUMMARY

Web developer skilled in Python, JavaScript, React, and SQL with experience building responsive applications. Strong in problem-solving, DSA and active participation in open-source contributions. Looking to create impactful projects and grow as a full-stack developer.

EDUCATION

Bachelor of Technology (Computer Science)	2024 - 2028
Newton School Of Technology, Ajeenkya DY Patil University, Pune	Grade: 7.06/10.0
Intermediate (Class XII)	2023 - 2024
Bharat Vidyalaya, Buldana	Grade: 74.17%
Matriculation (Class X)	2021 - 2022
Bharat Vidyalaya, Buldana	Grade: 71.8%

PROJECTS

JobTracker ([Github](#)) ([Demo](#)) January 2026

- Built a **full-stack Job Tracker web application** to manage job applications with status tracking (Applied, Interview, Offer, Rejected).
- Implemented **secure authentication** using **JWT + bcrypt**, with protected routes and user-specific job data access.
- Developed complete **CRUD functionality** with advanced features like **search, filters, sorting, and analytics dashboard**.
- Tech Stack: **React (Vite), Tailwind CSS, Node.js, Express.js, MongoDB (Mongoose)** and deployed on **Vercel + Render**.

QRConnect ([Github](#)) ([Demo](#)) November 2025

- Built a mobile app to **generate digital visiting cards** with QR codes for instant sharing using **React Native, JavaScript, Expo, and AsyncStorage**.
- Implemented offline profile storage, QR generation, and QR scanning without requiring any backend or internet.

Mood Tunes ([Github](#)) ([Demo](#)) April 2025

- Built a **mood-based music streaming web app using React.js, JavaScript, and CSS**, where users can select a mood to play curated songs.
- Displayed motivational quotes alongside each mood to create a more engaging experience.
- Built a responsive interface with smooth background and UI transitions for an immersive feel and **deployed on Vercel**

CERTIFICATIONS

Generative AI for Everyone DeepLearning.AI ([Link](#)) March 2025

- Completed **"Generative AI for Everyone"** course, learning generative AI fundamentals, practical applications, and ethical considerations for responsible use.

AI For Everyone DeepLearning.AI ([Link](#)) March 2025

- Completed **"AI For Everyone"** by DeepLearning.AI (Coursera), learning AI fundamentals, real-world applications, and strategies for leveraging AI in businesses.

SKILLS

Computer Languages: Python, TypeScript, HTML, CSS, JavaScript, SQL

Software Packages: Express JS, React Native, Prisma ORM, React, Node.js, Excel, MySQL, MongoDB

Additional Courses: Data Structure

Soft Skills: Time management, Decision-making, Teamwork, Responsibility

Others: AWS, Git and Github, Problem-Solving, OAuth 2.0

EXTRA-CURRICULAR ACTIVITIES

- Participated in hands-on robotics projects, including the development of a line-following robot. Gained experience in circuit design, microcontroller programming, and problem-solving.
